

Secure By Integrity Ltd

Case Study 2

A successful business supplying School wear to both Private and Local Authority Education Establishments regularly visit various premises to consult with the staff and to measure the Children and Young adults, for all the differing clothing and sportswear requirements.

Under fairly new Laws now in force within the UK (designed to protect vulnerable persons including young people) Employers have a duty of care to ensure that all workers who come into contact with such groups, need to be able to provide not only a demonstrable employment history but have clearance through the Criminal Record Bureau.

SBI Ltd are what is termed “an Umbrella Organisation” for the purposes of accepting responsibility for obtaining clearance checks from the Criminal Records Bureau. For a very modest cost added to the overall Employment Screening Fee, SBI can provide a One Stop Shop for every requirement needed within such a vital Employment screening process.

For this particular Client all new employees are now screened and a Criminal Record check made to establish a creditable history thus enabling the company to focus upon its core business and not divert valuable resource to a service that can be contracted out to a specialist provider on “a best value approach”.
